

TRUB

Meaning: Trub refers to the sediment or residue, often consisting of yeast and other particles, that settles at the bottom of a container, as well as a mixture of colors or materials used in artistic creation.

1. The artist used a trub of colors to create a vibrant and dynamic painting.
2. After brewing the beer, the trub settled at the bottom of the fermenter, leaving the liquid clear.
3. It's essential to separate the trub from the wort to ensure a cleaner final product.
4. Many homebrewers struggle with how to manage the trub during fermentation.
5. The chef added a sprinkle of herbs, believing it would enhance the trub's complex flavors.
