

TUMBLEWEED

Meaning: Tumbleweed is a type of plant that breaks away from its roots and is blown by the wind, often found in arid regions, symbolizing desolation or emptiness.

1. The desert was eerily quiet, broken only by the sound of a tumbleweed rolling across the parched earth.
2. As the wind picked up, a tumbleweed danced across the empty street, evoking a sense of solitude.
3. In the Western film, the protagonists faced off amid a swirling cloud of dust and tumbleweeds.
4. The child laughed as she chased after a tumbleweed that blew by during their picnic in the park.
5. Tumbleweeds have become a symbol of the desolate beauty of the American Southwest.
