

TURRET

Meaning: A turret is a small tower, often part of a larger structure such as a castle, used for observation or defense.

1. The castle's turret offered a stunning view of the surrounding countryside.
2. During the battle, archers took their positions in the turret to defend against the enemy.
3. The old clock tower's turret chimed every hour, echoing through the quiet streets.
4. She climbed the narrow staircase to reach the turret, excited to see the sunset from above.
5. In the video game, players could customize their turret for better defense against invaders.
