

TYMPANY

Meaning: Tympany is a medical term referring to a hollow, drum-like sound produced by tapping on a body part, often indicating the presence of gas or fluid, particularly in the abdomen.

1. The doctor explained that tympany can be a sign of intestinal obstruction.
2. During the examination, the physician noted a distinct tympany when he tapped on the patient's abdomen.
3. The presence of tympany in the patient's abdomen raised concerns about possible fluid accumulation.
4. In medical practice, recognizing tympany is crucial for diagnosing various gastrointestinal conditions.
5. The resident learned that tympany is typically assessed using percussion techniques during a physical exam.
