

# UDDER

*Meaning: Udder: the mammary gland of female cattle and some other mammals, responsible for producing and storing milk.*

1. The cow's udder swelled with milk, ready for milking.
2. Farmers often inspect the udder for any signs of infection or disease.
3. After giving birth, the mare's udder filled quickly to nourish her foal.
4. During the dairy workshop, we learned how to properly clean the udder before milking.
5. The vet examined the udder carefully to ensure the health of the livestock.
