

ULTRAMONTANISM

Meaning: Ultramontanism is a doctrine within the Catholic Church that emphasizes the authority of the Pope and the centralization of church governance in response to secular influences and nationalistic movements.

1. Ultramontanism emerged as a powerful movement within the Catholic Church during the 19th century.
2. The rise of ultramontanism was a response to the challenges posed by modern secularism and nationalism.
3. Critics of ultramontanism argue that it undermines local church authority in favor of central papal control.
4. In many regions, ultramontanism strengthened the papacy's influence over political and social matters.
5. The debate surrounding ultramontanism often centers on the balance between individual bishops' autonomy and papal supremacy.
