

UNBALLASTED

Meaning: Unballasted refers to a ship or vessel that lacks sufficient weight or ballast, making it unstable and prone to swaying or tipping in turbulent conditions.

1. The unballasted ship swayed dangerously in the turbulent waters.
2. During the storm, the unballasted cargo caused the vessel to tip precariously.
3. Engineers noted that the unballasted system would be unstable under heavy loads.
4. The unballasted freight train struggled to maintain its speed on the steep incline.
5. Without ballast, the unballasted aircraft found it difficult to achieve stable flight.
