

UNDERLEAF

Meaning: Underleaf refers to the underside of a leaf, often characterized by distinct colors or patterns that differ from the upper surface.

1. The underleaf of the plant was a vibrant shade of green, contrasting beautifully with its upper surface.
2. Observing the underleaf revealed intricate patterns that were hidden from view at first glance.
3. The gardener noticed that the underleaf was where most of the pest damage occurred.
4. She carefully examined the underleaf for signs of disease before deciding to prune the plant.
5. In the sunlight, the underleaf shimmered, showcasing its unique texture and color.
