

UNGENITURED

Meaning: Ungenitured refers to beings or souls that are not born from a lineage or family, suggesting freedom from familial constraints and expectations.

1. In the debate about the nature of fate, some argued that ungenitured souls are free from the constraints of lineage.
2. The philosopher posited that ungenitured beings might possess a unique perspective on existence, untainted by familial expectations.
3. In literature, the concept of ungenitured characters often symbolizes independence and self-definition.
4. The artist's latest work explores the idea of ungenitured identity, challenging traditional notions of heritage and belonging.
5. In a society obsessed with lineage, the notion of being ungenitured can be both liberating and isolating.
