

UNIPERSONALIST

Meaning: Unipersonalist (noun): A person or advocate who supports a governance or organizational model where decision-making authority is concentrated in a single leader or individual.

1. The unipersonalist approach to governance emphasizes the importance of a single leader's vision.
2. In a unipersonalist organization, decision-making power is concentrated in one individual.
3. Critics argue that a unipersonalist model stifles creativity and collaboration among team members.
4. The author's novel explores the consequences of unipersonalist rule in a dystopian society.
5. Many political theorists debate the effectiveness of unipersonalist leadership versus collective decision-making.
