

UNORIGINATED

Meaning: Unoriginated refers to something that does not have a specific origin or source, often used in philosophical contexts to describe ideas or existence that arise independently of prior causes or influences.

1. The concept of an unoriginated idea challenges our understanding of creativity.
2. In philosophy, the notion of an unoriginated existence raises questions about causality.
3. Many believe that all thoughts are reflections of prior influences, rejecting the idea of unoriginated inspiration.
4. The artist struggled with feelings of inadequacy, fearing her work might be deemed unoriginated.
5. In a world filled with constant influence, finding something truly unoriginated is a rare occurrence.
