

# URBANIZATION

*Meaning: Urbanization is the process by which an increasing percentage of a population comes to live in urban areas, resulting in changes to city structures and dynamics.*

1. Urbanization has led to significant changes in the structure of many cities around the world.
2. The rapid urbanization of developing countries presents both opportunities and challenges for policymakers.
3. As urbanization continues, it is essential to address the environmental impacts of city expansion.
4. Urbanization often results in the migration of people from rural areas in search of better economic prospects.
5. The effects of urbanization can be seen in the growing demand for housing and infrastructure in metropolitan areas.
