

# URINAL

*Meaning: A urinal is a wall-mounted fixture used for urination, typically found in men's restrooms.*

1. The new public restrooms feature modern urinals that conserve water.
2. He was embarrassed when he accidentally walked into the women's restroom instead of using the urinal.
3. Maintenance staff regularly check the urinals to ensure they are clean and functional.
4. At the stadium, the long line for the men's urinals seemed to stretch on forever during halftime.
5. Some urinals are designed with a privacy partition to provide a more comfortable experience.
