VALUATION

Meaning: Valuation is the process of determining the economic value of a company or asset.

1. The company's valuation rose significantly after the successful product launch.
2. Investors often rely on external analysts to provide an objective valuation of a startup.
3. To determine the fair market value, a comprehensive valuation of the property was conducted.
4. Her financial expertise helped the team navigate the complex valuation process for the merger.
5. A high valuation can attract more investors, but it also raises expectations for future growth.
