

VULTURISM

Meaning: Vulturism is the practice of exploiting the misfortunes or vulnerabilities of others for personal gain or entertainment.

1. Vulturism often reflects a deeper societal issue where individuals exploit the misfortunes of others for personal gain.
2. In the harsh world of reality television, vulturism thrives as producers manipulate contestants' vulnerabilities for entertainment.
3. The journalist's vulturism became evident when he published sensational stories about the tragedy without considering the victims' families.
4. Activists have condemned the vulturism displayed by corporations that profit from natural disasters while offering little support to affected communities.
5. Critics argue that vulturism in the media can desensitize the public to suffering, turning tragedy into mere spectacle.
