

WAGES

Meaning: Wages are the fixed regular payments made by an employer to an employee, typically calculated on an hourly, daily, or piecework basis, as compensation for their labor.

1. Wages have been stagnant for many workers despite rising living costs.
2. The company decided to increase wages in order to attract more skilled employees.
3. Many labor unions advocate for higher wages to ensure fair compensation for their members.
4. Some employees choose to negotiate their wages during the hiring process to secure better pay.
5. In some industries, wages vary significantly based on experience and education level.
