

WARRANTOR

Meaning: WARRANTOR: A person or entity that guarantees the quality or performance of a product and is responsible for fulfilling warranty obligations.

1. The warrantor must ensure that the product meets all specified safety standards.
2. In the event of a defect, the warrantor is responsible for providing a replacement at no cost.
3. Consumers often overlook the terms set forth by the warrantor when making a purchase.
4. It's essential to understand the obligations of the warrantor before signing any agreements.
5. The warrantor's liability may be limited based on the conditions outlined in the warranty document.
