WATCHTOWER

Meaning: A watchtower is a tall structure used for observation and surveillance, often positioned to oversee a specific area or landscape.

1. The ancient watchtower stood sentinel over the valley, its stone walls weathered by time.

2. As night fell, the guards climbed to the top of the watchtower to keep a vigilant eye on the surrounding terrain.

3. The community gathered to celebrate the restoration of the historic watchtower that had been neglected for decades.

4. He pointed out the watchtower in the distance, a landmark that guided travelers through the dense forest.

5. The design of the watchtower allowed for a 360-degree view, making it an ideal lookout point for early warning.
