

WEEZEL

Meaning: Weezel: a small, agile carnivorous mammal resembling a ferret, often used metaphorically to describe a deceitful or untrustworthy person.

1. The weezel darted through the underbrush, its sleek body blending seamlessly with the shadows.
2. She described him as a weezel, always scheming and never quite trustworthy.
3. In the wildlife documentary, the weezel was shown skillfully hunting small rodents.
4. He had the cunning of a weezel, always finding a way to escape responsibility.
5. The children giggled as they watched the playful weezel chase after its own tail.
