

WIMBREL

Meaning: Wimbrel: a large shorebird of the sandpiper family, characterized by a long, curved bill and often found in coastal habitats, especially during migration.

1. The wimbrel is often spotted along coastal mudflats during migration.
2. With its long, curved beak, the wimbrel adeptly probes the sand for hidden crustaceans.
3. Birdwatchers flock to the estuary in hopes of catching a glimpse of the elusive wimbrel.
4. In the early morning light, the wimbrel's silhouette can be seen against the rising tide.
5. Conservation efforts are crucial to protect the wimbrel's breeding grounds from encroachment.
