

YAK

Meaning: Yak: a large, long-haired domesticated bovine animal native to Central Asia, used for transportation, milk, and meat.

1. The yak is a sturdy animal commonly found in the mountainous regions of Central Asia.
2. Farmers often rely on yaks for transportation and as a source of milk and meat.
3. During the harsh winter months, yaks are essential for the survival of many remote communities.
4. The thick fur of the yak protects it from extreme cold, making it well-suited for high altitudes.
5. In Tibetan culture, the yak is considered a symbol of strength and resilience.
