

# YAWL

*Meaning: A yawl is a type of sailing vessel characterized by a two-masted rig, with the smaller mast located behind the main mast.*

1. The old yawl sailed gracefully across the bay, its sails catching the afternoon breeze.
2. After hours at sea, the crew finally spotted a yawl anchored near the shoreline.
3. He decided to restore the vintage yawl he had inherited from his grandfather.
4. The yawl's sleek design allowed it to navigate the narrow canals with ease.
5. During the regatta, the yawl competed fiercely against larger vessels in the racing class.
6. During the summer, we often take the yawl out for leisurely trips along the coastline.
7. He had always dreamed of owning a classic yawl, with its elegant lines and sturdy construction.
8. As the storm approached, the crew quickly prepared the yawl for rough seas and strong winds.
9. The yawl, with its dual masts and spacious deck, became the centerpiece of their weekend adventures.
