

YELK

Meaning: Yelk: the yellow, nutrient-rich part of an egg that nourishes the developing embryo, often used in cooking for its flavor and color.

1. The bright yellow yelk in the egg is a sign of freshness.
2. Chefs often prefer using eggs with a deep orange yelk for richer flavor.
3. When making a custard, the quality of the yelk can significantly affect the texture.
4. Children are often fascinated by the way the yelk breaks and spreads in a pan.
5. A high yelk-to-white ratio is often desired in baking for added richness.
